Downloading Planeteers

1. After entering your secret code the download will appear.
Click to download the version you need.

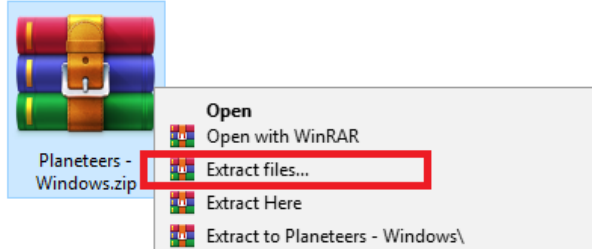

2. After downloading the zip file, put it in the root folder of your computer drive, for example:

- Local Disk (C:\) for Windows.
- Or in /apps for Mac.

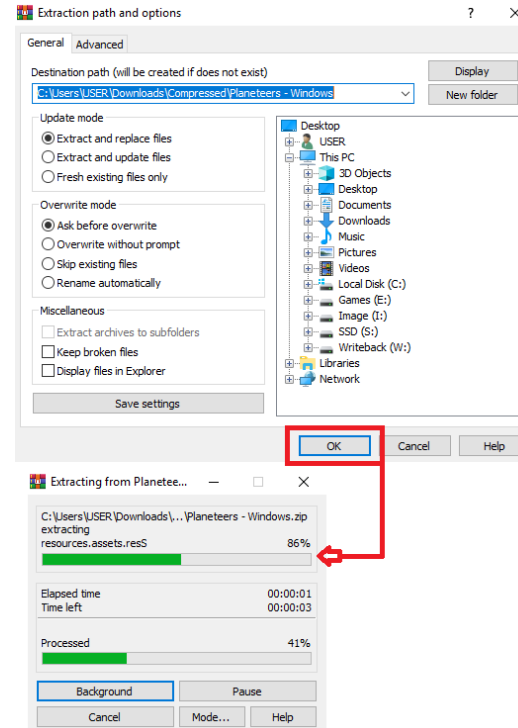

Installing for Windows

3. After placing the zip file in the correct folder, you need to unzip or extract the entire folder. Right click on it and select “Extract files...”.

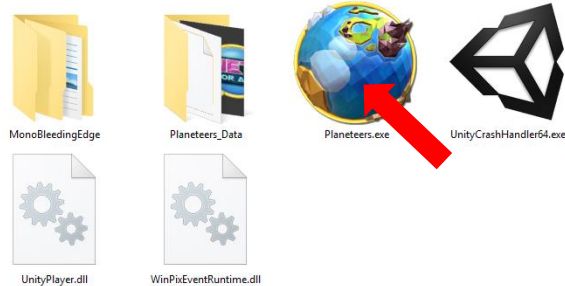

4. A new window will appear. Confirm the extraction location and click on “OK”. Wait for the extraction process to finish for about 3-5 minutes.

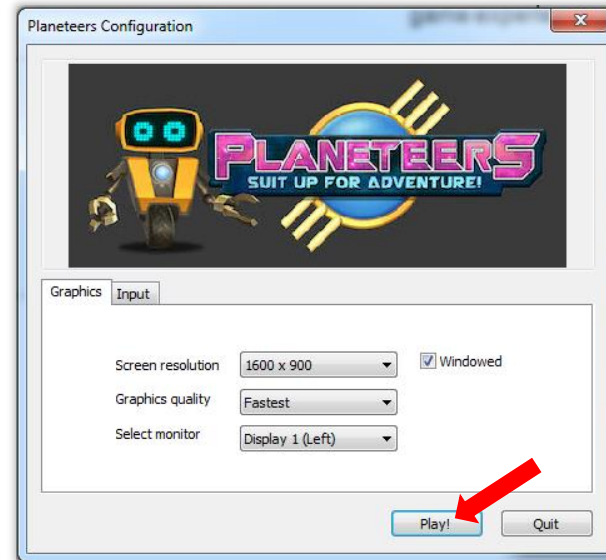

Installing for Windows

5. Open the “Planeteers – Windows” and run “Planeteers.exe” to start the game.

6. You will then be asked to configure the display settings.
The configuration below is recommended.
Click on Play to start the game.

Game Home Screen

4. You should see the Home Screen, click the “Register” button to go the License Verification Panel.

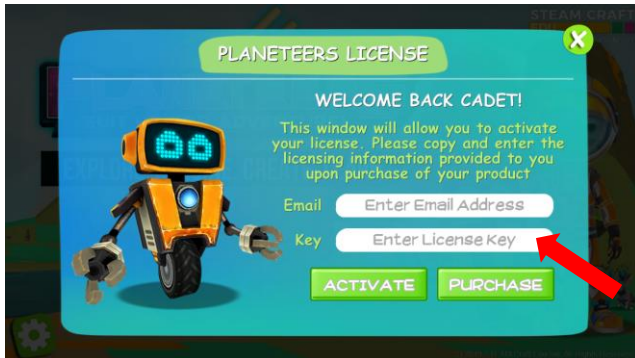

Game Home Screen

8. Enter the Email you registered here:

9. Enter the License Key received in you email here:

10. Click “ACTIVATE” button once you have entered your Email and License Key to start playing the game!

NOTE:

- When you successfully registered your email and able to download the game, the License Key will be sent immediately to your Email.
